Subject: Call from Marianne

Hi Debra and/or Dale -

Getting ready to leave for the airport soon and home phone rang (from my call forwarding hopefully) - by the time I realized that it was Marianne and wasn't a telemarketer or political call it had stopped ringing. Can one of you check in with her to see what she might need? I suspect she might be asking for clarification on what pictures I had asked her to re-send yesterday, and she might have emailed too, but my computer is already packed up for the flight so I won't be able to check in to see if she had emailed back until later in the day regardless. Thanks!

Best Regards,
Jonathan Stein
